

Report of the Anti-Doping Commission

**IWF Congress
Penang, Malaysia
19th October 2016**

Dr. Patrick Schamasch,
ADC Chairman
Dr. Eva Nyirfa,
IWF Legal Counsel

What happened since Tbilisi

This period could still be called as a **black period** for sport in general

- **IAAF scandal** – RUSADA, Moscow Laboratory – SUSPENSION
- **Sochi scandal and Mc Laren's report**
- **Suspension of multiple laboratories**
- **IOC actions**

What have we done since Tbilisi?

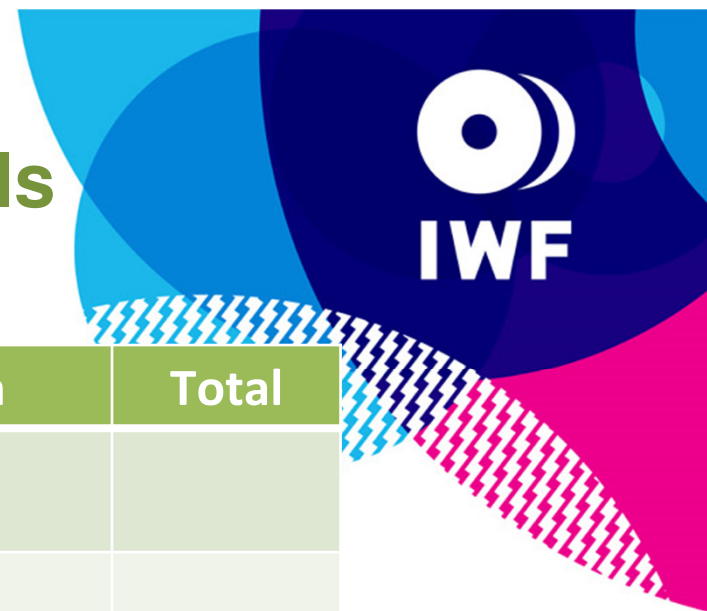

- Various meetings and collaborations with the stakeholders of the anti-doping community
- Pre-Event Testing of Rio 2016
 - Thorough OOC testing between the JWC and the Rio OG
 - 23 missions
 - 16 countries
 - More quality than quantity → increasing role of the Athlete Passport Management Unit
 - Increased collaboration with NADOs and RADOs
- Successful collaboration with WADA Task Force and Rio 2016 -
Pre-event testing and preparations for the In-Competition sample collection conducted by the IOC

Statistics on the doping controls 2016 up to Penang

	Women	Men	Total
Number of tests	517	688	1205
Number of tests performed out-of-competition (OOC)	157	245	402
Number of tests performed in-competition (IC)	360	443	803

Statistics on the doping controls in Rio 2016

	Women	Men	Total
Number of tests			
Number of tests performed out-of-competition (OOC)	24	52	76
Number of tests performed in-competition (IC)	35	41	76
Number of blood tests	6 OOC	9 OOC	15
Number of urine tests	18 OOC	43 OOC	61

Athletes Tested by Continents 2016

IC / OOC by Continents 2016

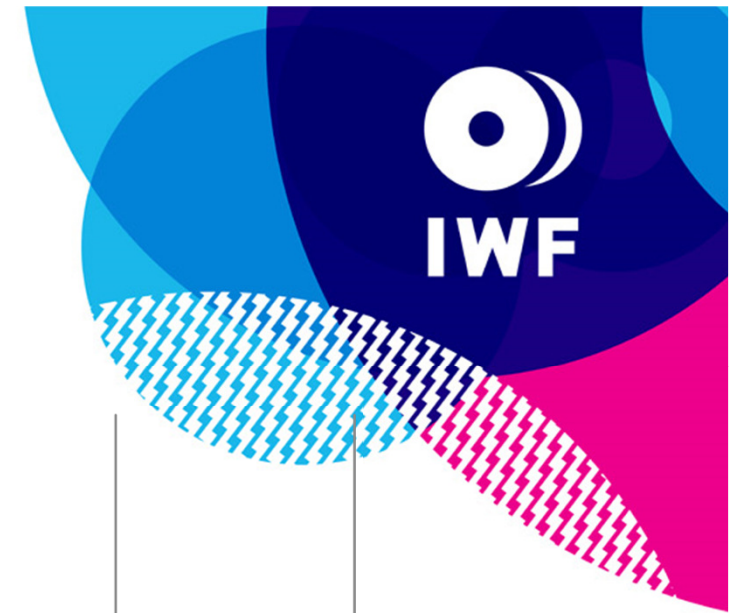

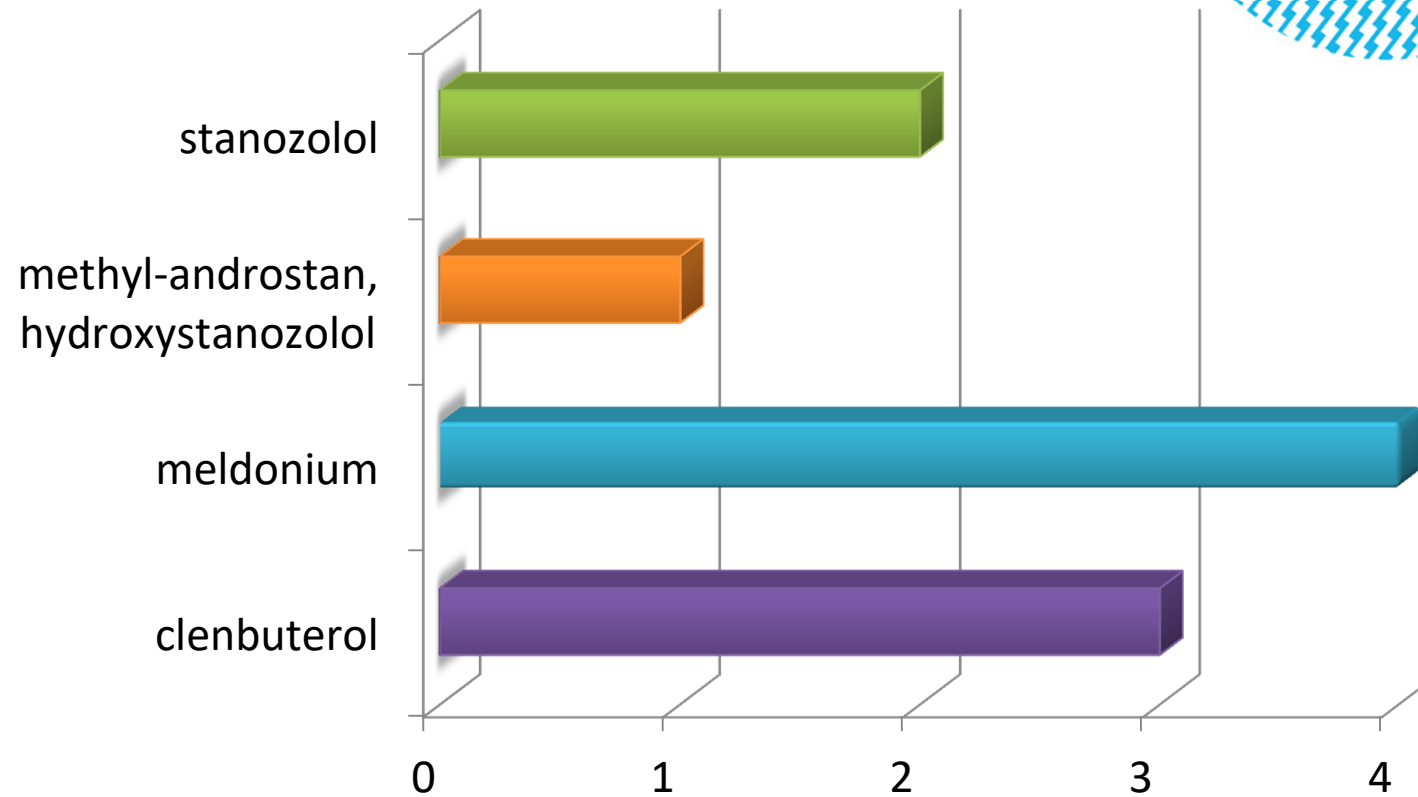

Substances in 2016

AMEROLIDE
BOLDENONE
CLENBUTEROL
DEHYDROCHOLORMETHYLTESTOSERONE
D-METHAMPHETAMINE
FUROSEMIDE
HYDROCHLOROTHIAZIDE
IBUTAMOREN
IPAMORELIN
LETROZOLE
MESTEROLONE
METHANDIENONE
METHANDRIOL
METHASTERONE
METHENOLONE
METHYLTESTOSTERONE
NANDROLONE
OXANDROLONE
STANZOLOL
TESTOSTERONE
TRENBOLONE

Substances in 2016

2017 PROHIBITED LIST

Published on 1st October 2016
Enters into force on 1st January 2017

Anti-Doping Rule Violations (ADRV) and Adverse Analytical Findings (AFF) in 2016

- . Ongoing cases: 10**
- . 4 cases from the Olympic Games**
 - (CAS Anti-Doping Division -> IWF)**
- . Closed: 7**
- . CAS: 5**

Reanalysis

Due to the outstanding scientific development of analysis technologies since the 2008 and the 2012 Olympic Games, the IOC decided to reanalyze samples from the 2008 Beijing and the 2012 London Olympic Games based on its own selection procedure.

In case of an Adverse Analytical Finding, the IOC notifies the relevant NOC and the IWF. After that, the IOC proceeds with the results management followed by that of the IWF.

It is the responsibility of the IOC to deal with the analyses of the B-samples and to hold a hearing based on which it decides about the Anti-Doping Rule Violation and the Disqualification of the athlete from the respective Olympic Games.

A final decision is made by the IOC establishing whether an ADRV was committed or not. In case an ADRV was committed by the athlete in question, the IOC proceeds with the Disqualification. It is only after that the IWF can make its own decision about the sanction to be applied. For that, the possibility of an IWF hearing is offered to the athlete.

Both the IOC and the IWF decisions can be appealed at CAS for 21 days from the day of their receipt.

The IOC Reanalyses in Numbers: Breakdown by current status

Three possible statuses:

- **Ongoing IOC**: the decision of the IOC is not yet made or the decision of the IOC is under appeal at CAS
- **Closed IOC / Ongoing IWF**: the IOC decision is made and it is final – the IWF procedure is ongoing or the decision of the IWF is under appeal at CAS
- **Closed IOC / Closed IWF**: both the IOC and the IWF decisions are final

The IOC Reanalyses in Numbers: Breakdown by current status

- Total number of cases
- (=Adverse Analytical Findings reported): **48**
- **Ongoing IOC: 40**
- **Closed IOC / Ongoing IWF: 7**
- **Closed IOC / Closed IWF: 1**
